

Truety Commissioning Application

Reduce hardware and installation costs

Improve project deployment speed, quality and accuracy with the Truety CX App. Truety is built with end to end system intelligence removing costly processes such as wiring, manual documentation and programming. Truety CX App improves quality, saves time and builds trust.

System Intelligence

- » Tap & Go Verification
- » Automated Documentation
- » Save Time & Money
- » Improve Quality
- » Build Trust

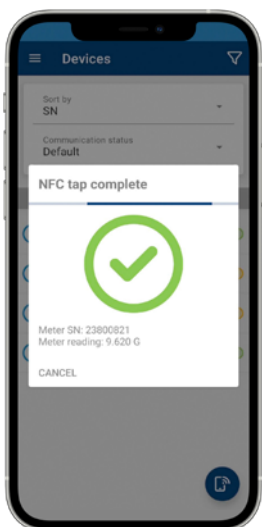

Benefits

- » Cost Efficient - Reduce Hardware and Installation Costs
- » Improve Quality
- » Track Project Performance
- » Device Traceability
- » 100% Encoded Data

Features

- » Android, iOS
- » NFC Device Activation
- » Automated Documentation
- » Automated Process
- » Real-Time Alerts & Alarms

Truety System Intelligence with One Touch Technology

Automated Documentation

- » Meter Serial Number
- » Utility Type (Hot & Cold)
- » Unit of Measure [G, f³, m³]
- » Manufacturer ID
- » Meter Reading
- » Device Status
- » Photos

Automated Process

- » NFC Activation & Commissioning
- » No Wiring
- » No Programming
- » No Set-Up
- » No Documentation

Real-Time Alerts & Alarms

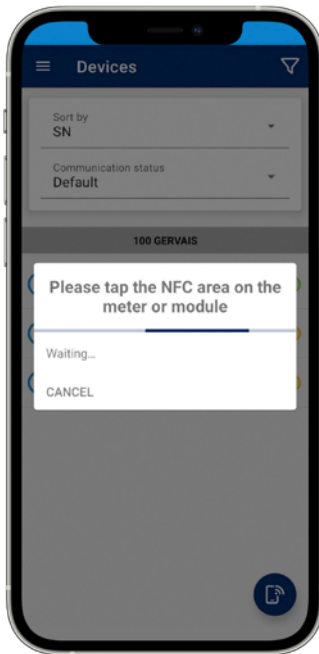

- » Reverse Flow
- » Tamper & Interference
- » Leak
- » Incorrect Wiring
- » Meter Communication Status

Build Trust

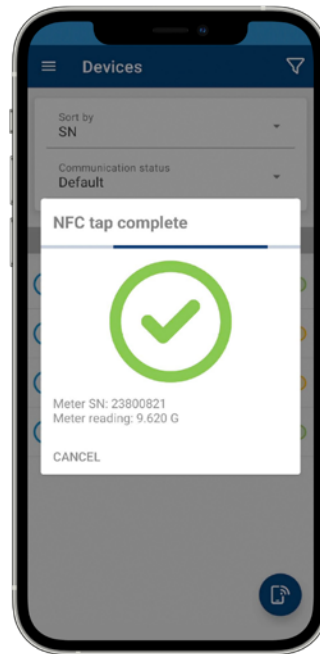

- » Digital Asset Information
- » Historical Logs
- » Cloud Storage
- » Eliminate Errors
- » User & Device Audit Tracking

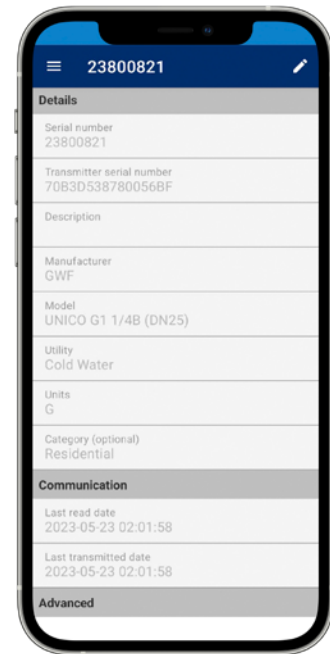

Activation and Commissioning Made Easy - Tap & Go
